

Appendix B

Draft Leicestershire Together engagement framework

Why have we produced this framework?

Identifying and responding to users/local people's needs is a key priority for the Leicestershire Together partnership. In order to access the views of residents effectively and efficiently, we have developed this framework, which sets out channels of engagement with some of the key communities in Leicestershire.

We hope that this document will act as a directory for service providers from all sectors, making it easier for everyone to access, understand and respond to the needs of Leicestershire communities. We also need to remember to feed back to these communities how their input has influenced what we do, for example how key policies have changed, how service delivery has been tweaked to make it more responsive etc. It is important to note that there are likely to be some people who will not be reached through these routes.

Who is it aimed at - who are the target communities?

The Leicestershire Together partners have identified the following target groups, which are split into "communities of interest" and "communities of geography":

Communities of Interest

Young People

Older People

Black and Minority Ethnic Communities

People with Disabilities (this includes people with a physical impairment, visual or hearing impairment, mental health condition, learning disability or health condition such as cancer, HIV or MS)

Carers

Gypsies and Travellers

Refugees, Asylum Seekers and Migrant Workers

Faith Communities

Businesses

Lesbian, Gay and Bi-sexual People

Transgender People
Communities of Geography
Market Towns
Rural Areas (including parishes and rural service centres)
Priority Neighbourhoods (identified in the LAA)
Community Forums

There are a number of other communities of interest who we work with on an on-going basis, including parents and people living in poverty. We also work with specific individuals/groups of service users, including victims of crime, bus users and patients.

We have various tools to reach the general public, including Leicestershire Matters, our Citizens Panel and Focus Groups, that we use to gather feedback on our services.

What is included in the Framework?

This document does not talk about tools (information about these can be found in other places, for example http://website/index/your_council/haveyoursay/consultation_methodology.htm).

Instead it outlines the key mechanisms for engagement with these communities - the routes through which people can contact representatives of these communities. This could be directly through a representative network of users, indirectly via a statutory or voluntary partnership or through the agencies that work with them on an on-going basis.

The Communities of Interest section includes the main Community of Interest Network - this is the key group or groups in Leicestershire made of up of users/the target group. We have also identified the lead strategic partnership and the main agencies working with this community of interest. It is important to also recognise that not everyone within a particular community of interest is linked into these channels; indeed some people may view the representative networks/organisations as "gatekeepers" who do not represent and channel resources to all members of the community equally. You might need to think about other ways to engage with these people!

The Communities of Geography section identifies key contacts for the individual geographical levels. These contacts will be a route into other arrangements such as Town Centre Partnerships, Neighbourhood Forums etc. Details of the Community Forums that

are being established across the County will be added in once they are finalised, along with the contact details for the new Community Engagement Team at Leicestershire County Council who will be in post from September onwards and who can facilitate engagement at community forum, market town and priority neighbourhood level.

COMMUNITIES OF INTEREST

This section of the Framework outlines existing groups who provide a way/route to get in touch with each of the specific target communities. The lead partnership is identified, other partnerships in the county and the main agencies in Leicestershire working with these groups.

COMMUNITIES OF GEOGRAPHY

The main levels of geography at which we will be working with communities are market towns, rural areas, priority neighbourhoods.

There is a primary mechanism for engagement with community representatives that applies across the county and that is the new network of Community Forums.

COMMUNITY FORUMS

Leicestershire is divided into the following Community Forum areas (map attached as Appendix XXX). Contact details for the Leicestershire County Council staff supporting each of the Community Forums are shown in blue below the name of the Forum.

Blaby - Blaby Central, Blaby North, Blaby South

Charnwood - Loughborough East, Loughborough North West, Loughborough South West, Bradgate and Rothley, Mountsorrel and Birstall, Syston, Thurmaston and Wreake villages, Shepshed and Hathern, Quorn, Barrow, Sileby and The Wolds

Harborough - Broughton Area (Rural West), Gartree (Mid Rural), Launde (Rural East), Lutterworth, Market Harborough

Hinckley and Bosworth - Bosworth, Hinckley Area, Markfield, Ratby and Groby

Melton - Asfordby, Belvoir, Melton Mowbray

North West Leicestershire - Ashby Area, Coalville, Valley

Oadby and Wigston - Oadby, South Wigston, Wigston

MARKET TOWNS

The County's town and village centres - which include urban centres such as Loughborough, market and other town centres, and smaller rural centres - are vital to Leicestershire's economic prosperity. The Leicestershire Local Area Agreement identifies 17 market towns and rural centres in the County:

Blaby	Hinckley
Loughborough	Market Bosworth
Shepshed	Melton Mowbray
Syston	Ashby
Thurmaston	Coalville
Broughton Astley	Oadby
Lutterworth	South Wigston
Market Harborough	Wigston
Earl Shilton	

There are Town Centre Managers in place for the majority of these settlements. These Managers would be a good first point of contact to find out more about how to engage with Town Centre Partnerships etc.

LAA PRIORITY NEIGHBOURHOODS

Leicestershire has 19 priority neighbourhood areas which were identified in consultation with the 7 District Local Strategic Partnerships. Data and information from the Index of Multiple Deprivation, Poverty and Social Exclusion Index and District Local Strategic Partnerships identified pockets of pronounced deprivation within the county, based around Output Areas.

District LSPs are leading the implementation of neighbourhood management in the 19 priority areas. Their aim is that each priority area will have a Neighbourhood Action Team (NAT) made up of front line workers from a range of agencies, supported by a neighbourhood manager. Neighbourhood Forums will be set up to act as sounding boards for the NATs - the forums will be made up of elected members and other county representatives.

The Neighbourhood Managers for each of the priority neighbourhoods in Leicestershire are shown below - contact them to link into the Neighbourhood Action Team or Forum in their area.
